

# Best Summer Ever-Homeschool Edition

## Week Two

### Spirit

☐

Spend some time with the Lord picking out a special Scripture for the upcoming homeschool year. Consider getting it printed and framed to hang in your homeschool area.

### Husband

☐

Discuss what you will be teaching the children and consider both of your expectations. Ask your hubby if he has any preferences on what your homeschool should cover.

### Children

☐

Evaluate the previous school year for each child. Where did each excel and in what areas did they struggle?

### Home

☐

Purchase basic school supplies – pens, pencils, papers, binders, and folders. Do not forget about crafting essentials – crayons, markers, construction paper, colored pencils, glue, and scissors!

### Get Ready

☐

Take the time to learn everything about your local library. Discover more about this free resource!
