

# Best Summer Ever-Homeschool Edition

## Week Five

### Spirit

- Pray and consider your gifts and also your weaknesses. Recognizing where you may need help in your homeschool is important.

### Husband

- Ask your husband if there is any subject that he would like to participate in. Consider what your husband's strengths and weaknesses are too.

### Children

- Begin creating individual curriculum lists for each child. This will be a two-week job, so take your time. Start with the core subjects this week.

### Home

- Make a list of your family's ten favorite dinners. This will be the start of meal planning once the school year starts.

### Get Ready

- Hit up some garage sales this week! Be on the look-out for puzzles, board/card games, craft sets, and Legos.
